

Title	Job Description for Production Technician level 1 -3		
Publication Date	30/05/2018	Version	1

**Title:** Production Technician Level 1 to 3

Bova Specials UK is a manufacturer of veterinary medicines that is regulated by the Veterinary Medicines Directorate (VMD). Bova UK holds a ManSA license (Manufacturer 'Specials' Authorisation-(Veterinary) to manufacture sterile and non-sterile products.

The stringent regulations set out by the Veterinary Medicines Directorate (VMD) is testimony to the quality of medications produced at Bova UK. The well-established quality culture ensures that the business remains compliant with current Good Manufacturing Practices (cGMP) and Good laboratory practices (GLP).

The Bova UK team are led by experienced professionals in the pharmaceutical manufacturing industry.

Autonomy to develop in the specified role is a key differentiator of working within a rapidly expanding company where your contribution is shaping the future of the business.

Self-determination and continuing education is vital for the development of the business and its individuals to ensure an effective working culture. We are looking for candidates who will champion their role and bring new ideas and concepts to drive innovation.

Bova UK manufactures various dosage forms such as solid, semi-solid, liquid, sterile injectable and ophthalmic preparations using a range of equipment and machinery. Analytical labs & microbial labs play a critical role in our operations. All the raw materials and finished products are tested against set standards as per ICH guidelines. Analytical labs also perform stability studies on new & existing products to monitor and improve the product quality and patient safety.

Salary packages are designed to commensurate employees for their skill set and contribution to Bova UK and include the Pension, health insurance, and other benefits such as discount memberships to third party service providers including gym membership.

We are looking for candidates who can demonstrate their competencies, have a vision for their career and can seamlessly integrate with our forward-thinking team.

**Operational Relationships:**

Responsible to Production Supervisor, Production Manager and Accountable to Operations Director.

**Qualifications:**

To discharge these duties successfully the applicant must be able to perform the roles outlined below to the satisfactory level and have obtained the necessary qualifications. ( see people specification for more details)

### **Minimum Experience**

24 months of experience in pharmaceutical industry either in production, technical or quality departments.

It is desirable to have an experience in Aseptic or Sterile manufacturing more than other areas.

### **Main Duties & Responsibilities**

This job description gives a general outline of the duties of the post and is not intended to be an inflexible or finite list. It may therefore be varied so that changing needs of the service can be met, in consultation with the post holder.

#### **Production related**

1. To generate manufacturing records and labels

3. Monitor the stock of finished product (Picking line) and raise internal stock orders and prepare KPI data for production manager to review.
4. To generate stock worksheet for intermediate products.
5. To inspect, label and package finished products ready for delivery
6. To participate in the disassembly of manufacturing equipment in preparation for cleaning
7. To inform supervisor when starting material/finished products stock falls below determined levels
8. Inspect and book received goods in to goods in log and check the content against delivery notes. Reconcile order and inform procurement and relevant department for arrival of material.
9. Inspect and sample API and other raw material for testing.
10. Complete testing form for QC and submit for analysis.
11. Process an order for picking line on Xero and generate invoice and picking notes
12. Pack goods and pick products following set procedures for shipping to our customers.
13. To perform stock check on set intervals of consumables, labels and stationary and maintain their stock to required levels.
14. To comply with the organisation's Documentation Policy
15. To ensure all documentation associated within manufacturing activities is recorded contemporaneously and is clearly written
16. To manufacture sterile and non-sterile dosage forms in accordance with detailed manufacturing instructions and procedures.
17. To assist with the filing and administration of documentation
18. To monitor the facility to ensure it is operating within defined limits
19. To ensure the working environment is maintained in a tidy state and to report the need for maintenance or repair work to a supervisor
20. To participate in the cleaning of the facility & associated equipment
21. Perform in-process checks for sterile and non-sterile products during the manufacturing.

22. Maintain equipment's and other production related machines in good working condition and inform line managers or supervisors for any breakage
23. Co-ordinate maintenance and calibration activities with service engineers if required
24. Washing of utensils and glassware as per the procedure and report any risk of cross contamination to supervisors and QA.
25. Follow company policy for personal protection and maintain stock PPE.
26. Participate in development and trial work for new products
27. Participate in process validation and process improvement activities
28. To be a part of continuous improvement team and suggest all the improvement ideas to supervisors or line managers
29. To maintain personal training records and monitor training records for production assistants.
30. Participate in new equipment qualifications and re-qualification exercise
31. Participate in new process development and share your experience.

### **Quality**

1. To report any deviations observed to a QA supervisor
2. To assist QA in deviation investigations, complaint investigations and completion of corrective and preventative actions
3. Record customer complaints in appropriate format and complete them with suitable records.
4. To maintain personal training records and monitor training records for production assistants.

### **General skill set required by Bova UK:**

1. Minimum education to degree level in Science related discipline or equivalent;
2. Demonstrate an ability to read and interpret documents which relate to health & safety and regulations, operating and maintenance instructions, and procedure manuals;
3. Demonstrate an ability to calculate basic and advanced figures which may include, but are not limited to, discounts, solutions strengths, concentrations, proportions, percentages, weights and volumes;
4. Must demonstrate an understanding of the importance of time management, following instructions and organisational skills;
5. Must possess exemplary computer skills and knowledge and be able to adapt to and learn any new computer software that may need be implemented;
6. Have an ability to follow manufacturing instructions for sterile and non-sterile dosage forms
7. Have an ability to follow complex, multistep manufacturing instructions and manufacture in compliance with good manufacturing practice;
8. Must be able to execute the physical demands required for this role including manual handling of equipment and materials;
9. Must demonstrate a willingness to work with chemicals in knowledge of potential side effects, and must ensure that all staff follow the procedures to ensure safe handling of hazardous chemicals;
10. Must demonstrate an ability to conduct complex procedures in an environment in which the noise level may be moderate, and be accurate and prompt;

11. Must demonstrate an ability to perform repetitive work within a busy manufacturing environment
12. Must have professional telephone etiquette skills, or have the capacity and willingness to develop these.
13. Must demonstrate excellent communication skills with other staff, suppliers and customers
14. Must be able to work on a multi-departmental level within the organisation to accomplish the overall business goals
15. Respond to correspondence (phone, email, mail or other) in a timely and efficient manner;
16. Other reasonable duties as assigned by senior management on an ad hoc basis.
